Edit The instructor's discussion of mental health made me feel supported as a student in lab.	4.5	20	0.7

The review presentations of student topic suggestions during lab exam weeks were helpful.

Question	Course		
	Mean	Response Count	Standard Deviation
The review presentations of student topic suggestions during lab exam weeks were helpful.	4.4	20	0.8

ANAT Open Ended Questions

What did you like most about this course and instructor?

Students

This class was great to help solidify and understand what I learned in lecture and both instructors knew what they were talking about and were very helpful

explained everything very well in a way that was easy to understand.

Theo would explain things in a way that made it easy to understand and memorable. I liked how he genuinely cared about how the students were doing both in and outside of the classroom.

Confident and brought a lighter, happier mood to the class. Always reassured us before and after taking lab exams

He always came in excited about what he was doing.

Great guy, made you work to getting the right answer instead of telling it to you. Gave a lot of his own learning tips to us and provided insight into the world of anatomy.

I enjoyed Theo's strict rules and how he stuck to them. He also made sure students were motivated to work instead of just catering to the student's lack of motivation (when asking questions for example).

very funny and hardworking; course was interesting

Not much

He explained the topics well and gave tips and tricks to remember them.

You are so witty which made your personality so fun to be around. You are knowledgeable about the donors and models. You were able to help us when we needed it. You are a fun instructor but are strict and hard on us when we've done wrong.

He made references to the media today, cracked jokes, and demonstrated things by dances while still focusing on the material.

Theo was very funny and made coming to class very easy. He has a clear love for the class and is very knowledgeable.

Theo is fantastic. He explains the material well and makes the students feel comfortable learning it. He will gladly explain the same structures as many times as a student needs it. Theo also focuses highly on independent learning and will often make students find the answer themselves rather than just giving it to them. He is very personable and always tries to make himself available to discuss any issue a student feels the need to talk about, whether it be regarding anatomy or personal issues. I would gladly retake this course with Theo as an instructor.

he was sassy, in a good way and wanted you to do you best and was willing to figure out what learning style worked best for you and help you with it

Hey Theo I know I did a terrible job in this class, but I promise I'm not stupid or lazy.

Thanks for all of your advice and help.

-Julia Collins

What did you like least about this course and instructor?

Students
not enough lab time!!! (doesn't have to do with Theo)
Nothing!
Terrible in class references
N`
There is not a specific thing that I disliked about the instructor, rather, I disliked the little time spent on the cadavers in each class.
course was difficult
A lot
He was a little bit hostile when you asked him questions.
The only bad experience I had with him was the day he brought around the pelvis. I was not expecting him to ask questions about it, but he was persistent and we worked through the answers together.
N`
No comment. Theo is perfect.
nothing!
